

# Luminous™ Certified LED Low Profile Lightbars

Available in 3 sizes and 3 colors

The LUMINOUS Series consists of high-performance, low profile linear lightbars designed with the latest state-of-the-art electronic circuitry that has low power consumption and will provide years of reliable service. The switch controller is the command center for the lightbar, controlling all functions with a flash pattern indicator and digital display. All models have polycarbonate clear lenses that are waterproof, and UV stabilized. The Luminous series has a size that can accommodate trucks and crew cabs, midsize and fullsize cars and compact cars.

- **SAE J845 Class 1 Certified and CA Title 13 Approved**  
Use in all municipal applications where SAE certification is required
- **Clear lens with color LEDs**  
Modern sleek look
- **29 light patterns plus 3 traffic advisory patterns**  
Easy selection of the light pattern to fit conditions
- **360-degree visibility and super bright take down and alley lights**  
For use in all traffic conditions and locations
- **Extruded aluminum top and bottom**  
True commercial quality for long term durability and reliability
- **IP65 Rated**  
Built to withstand all weather conditions
- **Includes all required stainless-steel hardware and Light Controller**  
Ready to use

#### SPECIFICATIONS:

- Series: Luminous
- Attachment Method: Permanent
- Operating voltage: 12-24 VDC
- Construction: Heavy-duty extruded aluminum top and bottom
- LED output: 3-Watts
- LED type: 3030
- 31": 78 LEDs
- 48": 126 LEDs
- 57": 150 LEDs
- Takedown dual color type: 5030
- LED life span: 100,000 hours of use
- 29 Selectable light patterns
- Length of power cable: 11.5 feet
- Length of controller cable: 11.5 feet
- Switch controller wire length: 5 feet
