WOLO Sure Safe® Clear Lens LED

#3720M-CA

The front left portion of a silver car is visible on the left side of the image, showing the headlight, grille, and bumper. The background is a grey, horizontally-slatted wall.

ABOUT WOLO

With a proud **55-year tradition** of providing quality products, Wolo is a leading supplier of audible and visual safety notification solutions in the aftermarket.

Our years of experience and knowledge allow us to bring you world class quality at very competitive prices. Our solution-oriented product lines are designed to build profit and keep you ahead of the competition.

Wolo is moving into the future with leadership in product innovation, personalized service, and a renewed emphasis on **providing exceptional value.**

QUALITY ASSURANCE

All Wolo products are designed to meet or exceed relevant SAE, ECE, and UL standards, so you can sell Wolo with complete confidence.

Wolo guarantees the quality and performance of the products we sell by maintaining our own in-house design and testing capabilities. All our manufacturing is done in ISO and TS certified factories to strict Wolo standards, and all our products are tested by the factory prior to shipping. In addition, many of our products are double-checked for quality compliance when they are received at our warehouse. As a result, our total manufacturing defect rates are well under 1%.

55+ years of quality

WOLO Guarantees...

to meet or exceed you and your customers' expectations

WOLO HORNS

Wolo horn lines include full OE-replacement coverage as well as a premium horn upgrade program.

Wolo horns are tested to specifications that are stricter than the required industry standards, to ensure long life and performance:

- > We test '1 on 3 off' to 100,000 cycles. That's more than double the required standard.
- > Sound output is tested to +/- 6Db. SAE only requires +/- 8Db.

- > OE replacement horns
- > Industrial horns
- > Musical and novelty horns
- > Air horns for truck, train, and marine applications including direct drive and onboard air models

WOLO LIGHTING

Our lighting optics are designed in house to ensure proper light distribution and compliance to specifications.

- > Wolo lighting is designed and tested to meet the strict SAE J845 standard that measures light output in 360 degrees.
- > Safety lightbars
- > Warning lights
- > Hand-held safety lights

WOLO Cubie™ Warning Light

#3726M-CA

WOLO ONBOARD AIR SYSTEMS

Whether your customer needs a system for load leveling, tire inflation, operating air tools, or powering air horns, Wolo has the onboard air system to meet their needs. Like all Wolo products, our onboard air systems are engineered and built for heavy-duty commercial use.

WOLO BACKUP ALARMS

Engineered to deliver years of reliable service, Wolo back-up alarms are available for a wide range of applications. From consumer vehicles to heavy-duty vehicles on the job site, Wolo has the right alarm for the application.
